

TAG 'E-Z' PipeCut HD Manual

Manual Double-Link Chain Driven Pipe Flame Cutting Machine

4" upwards

TAG's new 'E-Z' Cut portable flame cutting and bevelling chain driven machines are the economical solution for cutting and bevelling pipe from 4" upwards. The 'E-Z' Cut is small and compact, strong and reliable, used by contractors, welders and pipe fitters, equally at home on site or in the workshop.

The TAG 'E-Z' Cut HD is a straight forward hand operated manual and compact chain -driven pipe cutting machine that provides a smooth, accurate cutting action by incorporating a low gear ratio and worm wheel drive.

The unit also features a quick release Clutch. This allows the operator to disengage the chain from the drive cog for rapid set up and positioning.

This unit is offered as a manual version in standard configuration, or as a Heavy Duty Version, using a Duplex Chain to ensure accurate cutting and bevelling of larger diameter and heavier wall pipes in more difficult conditions.

The TAG 'E-Z' CUT flame cutter will cut 5-50mm thick pipe with a minimum diameter of 4"(100mm). The bevelling head angle can be set quickly and accurately by scale on a rack and pinion.

The complete package is supplied together with a length of guide chain suitable for Pipes up to 16".

Guide Band

For guaranteed square cuts and bevells on pipe diameters larger than 16" we recommend the selection of the optional guide band system to suit the relevant pipe size(s).

Technical Specification

Part No:	EZPCHD
Power Supply	N/A
Pipe Diameter	100mm (4") upwards
Wall Thickness	5 - 50 mm
Torch	Harris/Victor Type Machine Torch
Cut/Bevel Angle	Variable
Vertical Torch +/-	50mm
Lateral Torch +/-	100mm
Wheel Width	210mm
Weight	16.5kg
Dimensions	515(l) x 370(w) x 510 (h)mm
